ABSTRACT

A formal evaluation of the academic programs of Keystone Junior College (KJC) began in 1983-1984 with a survey of the graduates of the classes of 1979, 1981, and 1983. Questionnaires were mailed to 602 of the 657 KJC graduates who had received their degree either 1, 3, or 5 years previously. The survey sought information about the graduate's further education, employment while attending Keystone Junior College, and employment since leaving the college. The graduates were also asked to describe their first career-oriented job and their most recent career-oriented job. Study findings, based on a 43% response rate, included the following: (1) 57% of the respondents attended another school after leaving KJC, with 34% of these students earning a bachelor's degree; (2) of the 122 respondents who were employed while they attended KJC, 53% indicated their education had no effect on their job situation, 16% said their education had resulted in promotion and salary increase, and 16% said they could do a better job; (3) 65% of the respondents began a new job after they left KJC, and, of these, 67% were very or somewhat satisfied with their job and 84% were very or somewhat satisfied with their preparation for this job; and (4) 45% of the employed respondents indicated that they had had another career-oriented job subsequent to their first job after graduating. The survey instrument is included along with tables presenting study findings. (RO)

FOLLOW-UP SURVEY OF THE GRADUATES OF THE CLASSES OF 1979, 1981 AND 1983

Formal evaluation of the academic programs of the college began in the 1983-1984 academic year after a year of study and development. As part of the evaluation, a survey was conducted of the graduates of the classes of 1979, 1981 and 1983 which had graduated one, three and five years earlier, respectively.

Academic program evaluation is conducted by the Office of the Dean of the College with the support of the Academic Committee and the Office of the Registrar. Financial support for the development of the model for academic program evaluation during the 1982-83 academic year and its testing during the 1983-84 and 1984-85 academic years was provided by the U.S. Department of Education, Office of Postsecondary Education through a Title III Special Needs Grant. The follow-up survey was conducted and this report was written by Edward A. Gelb. Assistance with the processing of the questionnaires was provided by the Office of Data Processing and Communications.

Procedure

Questionnaires were mailed to 602 (92%) of the 657 graduates of the college who had received their degree either one, three or five years previously (classes of 1979, 1981 and 1983). The remaining 55 graduates were not sent a questionnaire either because a current address was not available (N=52) or because they were residing outside of the United States (N=3). An initial mailing was made during the last week of February, 1984 and a second mailing was made during the second week of April, 1984.

The questionnaire sought information about the graduates' further education, employment while attending KJC and employment since leaving KJC. For their employment since leaving KJC, the graduates were asked to describe their first career-oriented job (or their first job if they did not have any career-oriented employment) and their most recent career-oriented job (or their most recent job if they did not have any career-oriented employment). The questions upon which this report is based can be found in Table 1.

Results

Questionnaires were returned by 260 of the graduates (40% of all the graduates and 43% of the graduates who were mailed a questionnaire). The last questionnaire was returned during the last week of June, 1984. A breakdown by year of graduation and curriculum at KJC can be found in Tables 2 and 3.

A. Further Education

The number of respondents who attended another school after leaving KJC is 148 (57% of the respondents). A breakdown by year of graduation and curriculum can be found in Table 4. The schools they attended with their first and last term majors and their KJC majors can be found in Tables 5A - 5D. The degrees they have attained and are currently working on, their grades and their satisfaction with their education at KJC as preparation for their further education can be found in Tables 6A - 6G.

B. Employment While Attending KJC

The number of respondents who were employed while they attended KJC is 122 (47% of the respondents). The effect of their education at KJC on this job can be found in Table 7.

C. Employment Since Leaving KJC

The number of respondents who began a new job after they left KJC is 170 (65% of the respondents). The number who had at least one additional job is 76 (29% of the respondents). The job descriptions can be found in Tables 8A - 8F. Their salary, their job satisfaction, and their satisfaction with their education at KJC as preparation for their job can be found in Tables 9A - 9D.

TABLE 1. QUESTIONS UPON WHICH THIS REPORT IS BASED.

I. FURTHER EDUCATION

1. Did you attend another school after you left KJC?
2. What is the name and location of this school?
3. During the first term or semester you attended this school what was your major or field of study?
4. During the last term or semester you attended this school what was your major or field of study?
5. At the end of the first term or semester you attended this school what was your grade point average (GPA)?
6. At the end of the last term or semester you attended this school what was your overall cumulative grade point average (GPA)?
7. How do your grades at this school compare to your grades at KJC?
8. How well did your education at KJC prepare you for further education?
9. How satisfied are you with the preparation you received from KJC for your further education?
10. What is the highest certificate or degree you have earned since leaving KJC?
11. Toward which certificate or degree are you currently working?

II. EMPLOYMENT WHILE ATTENDING KJC

12. Were you employed while attending KJC?
13. Did your education at KJC lead to an improvement in your job situation?

III. EMPLOYMENT SINCE LEAVING KJC

A. First Job

14. Did you start a new job at any time after you left KJC?

15. Were any of these jobs career-oriented?

.. At this point respondents were asked to answer the following questions for their first career-oriented job or their first job if they did not have any career-oriented jobs.

16. How much education in addition to your KJC education did you have when you started this job?

17. Describe this job (e.g., accountant, engineer, assistant manager, secretary, assistant teacher, computer programmer, etc.)

18. When you started this job how much money did you earn per year?

19. Considering the amount of education you have and the duties of this job, how satisfied are you with this job?

20. How well did your education at KJC prepare you for this job?

21. How satisfied are you with the preparation you received from KJC for this job?

B. Most Recent Job

22. Did you have any other jobs since this first one?

23. Were any of these jobs career-oriented?

.. At this point respondents were asked to answer the following questions for their most recent career-oriented job or for their most recent job if none of these additional jobs were career-oriented.

24. How much education in addition to your KJC education did you have when you started this job?

25. Describe this job (e.g., accountant, engineer, assistant manager, secretary, assistant teacher, computer programmer, etc.)

26. When you started this job how much money did you earn per year?

27. Considering the amount of education you have and the duties of this job, how satisfied are you with this job?

28. How well did your education at KJC prepare you for this job?

29. How satisfied are you with the preparation you received from KJC for this job?

KEYSTONE
JUNIOR
COLLEGE

FOLLOW-UP SURVEY

FOR 1979, 1981 AND 1983 GRADUATES

... *How many Keystone students transfer to another college?*

... *How many get a job and begin their careers when they leave Keystone?*

... *How well prepared are Keystone graduates to begin a job or to continue their education?*

Dear Graduate:

These and related questions are the subject of this survey.

In the Fall of 1983, the College began an extensive project to evaluate its academic programs. Information from present students, past students and professional consultants is being collected.

We want to know whether what we are teaching is appropriate, whether our students are learning, and where we can improve our efforts. As you can see this is no small undertaking.

In order to answer some of these questions, this questionnaire is being sent to all of our recent graduates. Each person will be contacted one year, three years and five years after graduation.

You are important to us, for only you can provide us with the information we need. You alone have the experience to judge how well we have done in preparing our students for the world after Keystone Junior College.

Please take the time right now to answer the questions. The time it takes is relatively brief, but the information you provide us with is invaluable.

Please return the questionnaire within two weeks after you receive it.

Thank you in advance for your cooperation, and good luck to you in your present endeavors.

Sincerely,

William F. Messner

William F. Messner
Vice President and Dean of the College

P.S. Every voice counts! Don't delay. We want to know what and how you are doing. We intend to publish some of the results in a future edition of KEYNOTES.
